

sunshine coast dj's

MAKE IT AN EVENT TO ROCK THEIR SENSES

Sunshine Coast Dj's uses only state of the art sound and lighting, and all equipment is commercial grade. Cds are used as our playback medium, to ensure your dance floor doesn't stop. Our pioneer cd players have the latest in anti-skip protection, and have the ability to beat mix. Our Martin lighting effects help create an exciting dance environment for guests without being overbearing. Our lighting is compact, non-obtrusive and the beams are positioned for maximum effect, creating a special atmosphere.

All video dj packages consist of our full sound system and complete lighting and include:

- Your choice of music from our online music database list including video's (and additional requests)
- The latest and updated music available
- Full lighting and sound equipment (with microphone included)
- 2500 Lumen projector with short throw lens
- Projection screen 4ft x 6ft widescreen complete with tripod
- Free complete backup and emergency service (24 hours)
- Friendly and professional experienced vj (arrive 1 hour prior to start time)
- You are welcome to supply any other special songs providing they are on cd

We also have a generator service available and spare equipment on hand as a backup.

Corporate events

We hire pa systems, lapel and hand held microphones, data projectors, lecterns, lighting and powered mixing desks

Need a video projection system?

Hire a professional multimedia big screen projector from Sunshine Coast Dj's and have music videos, personal photos, themed images or movie footage shown during the course of your celebration. Whether your party is being held in your home, an office, a marquee or commercial venue, this is a great way of bringing something extra to your celebration.

Great for weddings, birthdays, anniversaries, themed parties, movie nights and whatever else you can think of.

Lighting

For your next black light party we have the ultimate weapon - a uv 400 watt gun

We also have available a laser light show. Create a groovy night club atmosphere or add a cool laser extravaganza. Fog machines and disco balls are only the tip of the iceberg. Add more excitement, movement and colour to your function with our red and green lasers.

All of our packages include the following, as standard:

- Ishow lighting
- Irock lighting
- Quality martin "intelligent" lighting

Sound equipment:

- Professional dj
- Extensive (8,000+) cd collection
- Pioneer cmx 3000 dual cd player
- Pioneer djm 3000 professional mixer
- "World famous" Australian monitor amplifier- 600 watts
- Ev speaker systems
- Ev cordless microphone system- the best sound in the business

Fog machine available on request (at additional cost)

We can provide a full club sound system if required, for an additional cost. This includes

- 2 X 18" ev sub bass bins
- 1 X ev electronic cross-over
- Plus an additional australian monitor amp – 800 watts
- Additional "intelligent" lighting if required
